**Artificial  
Intelligence  
and the Shaping  
of Democracy**

The project has two main goals:

- 1) **digital transformation** and
- 2) **democratic participation**.

It also aims to **raise awareness about AI** and its **benefits** and **risks**.

The project also **helps people** learn **new digital skills** and **take part in democracy**.

## **Empowering Through** Digital Transformation and Democratic Participation

## Navigating the Impact of **Algorithms and ADM** on Society

AI.D addresses the **challenges** and **potentials** posed by the **use of algorithms** and **automated decision-making systems** (ADM) in **society**.

AI.D's objective is to **enhance** the **critical AI-Literacy of educators** and **learners** in **vocational and non-vocational education**. Additionally, it aims to **facilitate discourse** on the **applications of ADM** across **various domains** and the **associated implications**.

To achieve this, AI.D  
will **formulate policy  
recommendations** in  
addition to **other  
project results**.

## Project **Results**

- **Four animated videos** on the use of AI in different areas of society
- **Four in-depth online courses**
- A **teacher training concept** consisting of three modules
- Additional **didactic material** for classroom use
- A summarised **curriculum**
- Final **policy recommendations**
